

## URGENT COVID-19 NOTICE

### Wastewater testing has detected COVID-19 in Fort Simpson

It is important to locate the source as soon as possible to prevent community transmission. Please see below and arrange for testing if you;

- have symptoms;
- are a known contact to a person with COVID-19;
- have recently visited Yellowknife or other NWT regions with COVID activity;
- travelled outside of the NWT

Scenario	Required Action(s)
Anyone with symptoms of COVID-19 in Fort Simpson regardless of vaccination status (vaccinated or unvaccinated)	<a href="#">Isolate</a> immediately. Arrange for a COVID-19 test Follow any further guidance from a health care provider.
Anyone who is a known contact to a person with COVID-19, and was in Fort Simpson on September 27, 28 or 29 regardless of vaccination status (vaccinated or unvaccinated)	<a href="#">Isolate</a> immediately. Arrange for a COVID-19 test Follow any further guidance from a health care provider.
Anyone who visited any region of NWT with COVID-19 activity since September 13, 2021 and was in Fort Simpson on September 27, 28 or 29 regardless of vaccination status (vaccinated or unvaccinated)	Arrange for a COVID-19 test Follow any further guidance from a health care provider.
Anyone who traveled outside of NWT since September 13, 2021 and was in Fort Simpson on September 27, 28 or 29 regardless of vaccination status (vaccinated or unvaccinated)	Arrange for a COVID-19 test Follow any further guidance from a health care provider.
