	Community Emergency Plan	2025
--	---------------------------------	------

1. Purpose

The purpose of the Community Emergency Plan is to facilitate a prompt, coordinated, and comprehensive response to emergencies with the potential to affect Fort Simpson operations and residents, both inside and outside Village of Fort Simpson (VFS) boundaries.

2. Scope

The VFS *Community Emergency Plan* is a requirement under the *NWT Emergency Management Act* and under the *Emergency Measures By-law*.

The *Community Emergency Plan* applies to VFS employees, the VFS Local Emergency Management Organization (LEMO), and all Partner Agencies involved in emergency prevention, preparation, response, and recovery.

3. Definitions

Emergency	An urgent, abnormal event that demands prompt coordination of resources to mitigate serious risk.
Emergency Management	The mitigation of emergency-associated risk through the prevention, preparedness, response, and recovery cycle.
Emergency Operations Centre (EOC)	The physical location from which emergency response is coordinated.
Incident Command System	A standardized and scalable emergency management framework that enables multiple agencies to operate within a common organizational structure.
Local Authority	The elected council of a community government, responsible for community emergency management.
NWT Emergency Management Organization (NWT EMO)	The body responsible for coordinating territorial and regional level emergencies and assisting with local emergencies.
Partner Agency	An external organization with emergency management responsibilities assigned under the Community Emergency Plan (e.g., government bodies, emergency services, businesses).
Regional Emergency Management Organization (REMO)	The regional portion of the NWT EMO, resident in the five regional GNWT Department of Municipal and Community Affairs (MACA) regional offices.
Risk	The chance of harm (the product of probability and severity).
State of Local Emergency	A declaration by the Local Authority that an emergency exists in the community, triggering the activation of the Community Emergency Plan.

	Community Emergency Plan	2025
--	---------------------------------	------

Support Service Provider A local organization that may be required to operate during evacuation to provide goods and services to emergency responders.
Territorial Emergency Management Organization (TEMO) The territorial portion of the NWT EMO, resident in the Public Safety Division of the GNWT Department of Municipal and Community Affairs (MACA).
Vulnerable Populations Residents who require special consideration, support, and attention during evacuation.

4. Introduction

4.1 Village of Fort Simpson

- The Village of Fort Simpson, located at 61° 51' N, 121° 21' W, sits on an island at the confluence of the Mackenzie and Liard Rivers. Fort Simpson is approximately 1,400 highway km north of Edmonton, Alberta.
- Fort Simpson is accessible year-round by air; via the Main Airport, Island Airstrip, float plane, and helicopter. It is inaccessible by road during Spring and Fall breakup and freeze up of its northern and southern river crossings for approximately 6-8 weeks of the year; In warmer months it is accessible via ferry from 0800 to 2345 daily from the Mackenzie Highway to the south; the Liard river ice bridge provides 24/7 road access in the colder months.
- The Village of approximately 1,100 people is governed by a mayor and eight councillors, with the administration led by a Senior Administrative Officer.
- The Village of Fort Simpson maintains a Protective Services Department that includes fire service, ambulance service, rescue, and emergency management.

4.2 Emergency Management

- An emergency is an abnormal and urgent situation that presents a risk of serious harm to people, property, environment, systems, and/or operations.
- Emergencies often present unique and challenging circumstances, such as:
 - Additional high-risk hazards;
 - Limited resources (i.e., communications, time, materials, personnel);
 - Heightened stress levels; and
 - Coordination of various response agencies and personnel.
- Emergencies demand prompt, structured, and sustained response to mitigate risk.

	Community Emergency Plan	2025
--	---------------------------------	------

- Emergency Management is the mitigation of emergency-associated risk through the prevention, preparedness, response, and recovery cycle.
- Community emergencies will happen; therefore a Community Emergency Management Program is required (refer to section 7).

5. NWT Emergency Management Framework

5.1 Responsibilities

Under the NWT Emergency Management Act, emergency management in the NWT is a shared responsibility between:

- The Government of the Northwest Territories (GNWT);
- Local Authorities (i.e., community governments);
- Partner Agencies (e.g., government bodies, emergency services, businesses), and
- Individuals.

5.2 Role of the GNWT

The NWT Emergency Management Organization (NWT EMO), established under the NWT Emergency Management Act, consists of:

- The Territorial Emergency Management Organization (TEMO):
 - The territorial portion of the NWT EMO, situated within the Public Safety Division of the GNWT Department of Municipal and Community Affairs (MACA);
 - Led by a MACA employee under direction of the Minister; and
 - Responsible for territorial emergency response, as well as to support the emergency management activities of REMO and Local Authorities; and
- Five Regional Emergency Management Organizations (REMO):
 - The regional portion of the NWT EMO, situated in each of the MACA regional offices: Dehcho (Fort Simpson), Beaufort Delta (Inuvik), North Slave (Yellowknife), Sahtu (Norman Wells), and South Slave (Fort Smith);
 - Led by MACA Regional Superintendents; and
 - Responsible for regional emergency response, as well as to support the emergency management activities of TEMO and Local Authorities.

	Community Emergency Plan	2025
--	---------------------------------	------

- The NWT EMO is responsible to:
 - Lead the GNWT in the coordination of emergency management activities;
 - Support the emergency management activities of Local Authorities; and
 - Coordinate, or assist in, the response of GNWT and public agencies to emergencies.

5.3 Role of Local Authorities

Under the NWT Emergency Management Act:

- The elected council of a community government is considered the Local Authority.
- The Local Authority is responsible for community emergency management.
- The Local Authority shall:
 - Establish and maintain a Local Emergency Management Organization (LEMO);
 - Appoint a LEMO Coordinator to lead the LEMO;
 - Ensure the development, implementation, and annual maintenance of a Community Emergency Plan; and
 - Ensure the current Community Emergency Plan is provided annually to the Head of the NWT EMO (through the REMO).
- The Local Authority has the power to:
 - Declare, renew, and terminate a State of Local Emergency;
 - Establish agreements with outside agencies and make payments for the provision of services for emergency management;
 - Conduct or authorize emergency management both inside and outside the community;
 - Authorize the temporary engagement of volunteers to carry out emergency management;
 - Evacuate the community, in whole or in part, and to restrict access back into the community due to safety risks or compromised critical infrastructure; and
 - Delegate any of its powers and duties under the NWT Emergency Management Act to the LEMO or LEMO Coordinator, except for the power to declare/renew/terminate a State of Local Emergency.

	Community Emergency Plan	2025
--	---------------------------------	------

5.4 Role of Partner Agencies

A Partner Agency is an external organization with emergency management responsibilities assigned under the Community Emergency Plan (refer to section 10).

A Partner Agency may play a supporting role by:

- Having responsibility for critical infrastructure and providing updates on impacts or recovery during emergency; or
- Contributing to overall emergency management.
- A Partner Agency may take the lead on routine emergencies within their areas of responsibility (e.g., GNWT Department of Environment & Climate Change during a wildfire).

5.5 Role of Individuals

All residents have a responsibility to themselves and their families to be prepared for emergencies. This includes:

- Reviewing the VFS Community Emergency Plan;
- Understand how and where VFS will share emergency information;
- Making a household emergency plan that covers how to stay informed on emergencies, how to stay connected with loved ones, a location to evacuate to if required to leave home or the community, and how to care for pets;
- Maintaining an emergency kit and grab-and-go bag for use if evacuation is required with little warning; and
- Protecting property and obtaining insurance.

5.6 Requesting GNWT Support

- When an emergency is too large or complex to handle at the local level, the Local Authority shall request assistance from the REMO.
- As a Dehcho community, Fort Simpson is supported by the Dehcho REMO.
- The emergency response remains under the direction and control of the Local Authority, with the following exceptions:
 - Should the Local Authority become overwhelmed or the emergency extends beyond community boundaries, the REMO may take some or all responsibility for direction and control of the emergency response.

	Community Emergency Plan	2025
--	---------------------------------	------

- Should an event impact a large area involving more than one community or region, or exceed the capacity of Local Authorities, the Minister of MACA may impose territorial control over the emergency response by declaration of a State of Emergency. At this point the NWT EMO takes responsibility for direction and control of the emergency response.

When required, a REMO can request assistance from the TEMO.

When required, the TEMO can request assistance from other provinces, other territories, and/or the federal government.

5.7 Further Information

For more information on emergency management in the NWT refer to the Northwest Territories Emergency Plan.

6. Emergency Management Cycle

6.1 Description

Emergency Management is conducted through a four-step cycle:

- Prevention;
- Preparedness;
- Response; and
- Recovery.

The cycle repeats to ensure continuous improvement.

6.2 Stage 1: Emergency Prevention

Prevention refers to the measures taken to help prevent the occurrence of, and mitigate the impact of, emergencies.

VFS employs a number of methods to help prevent or mitigate emergencies, such as Fire breaks, prescribed burns, community fire bans, public education, and fire smarting to reduce wildfire risk.

6.3 Stage 2: Emergency Preparedness

Preparedness refers to the measures taken to ready the community to address any emergency through structured planning, training, resource management, and exercises.

The goal of preparedness is to minimize response time and reduce the impact of an emergency.

	Community Emergency Plan	2025
--	---------------------------------	------

At the core of emergency preparedness is a comprehensive Community Emergency Management Program (refer to section 7).

6.4 Stage 3: Emergency Response

Response refers to the activation of the Community Emergency Plan to mitigate the risks presented by an emergency until the emergency no longer exists (i.e., putting emergency planning into action) (refer to section 14).

An effective response requires prompt and coordinated deployment of resources to mitigate risk and minimize harm to people, property, environment, systems, and operations.

Goals of emergency response include protecting the health & safety of responders and residents, protecting infrastructure and property from damage, protecting the environment, and reducing economic and social losses.

Emergencies introduce additional stress, challenges, and high-risk hazards, making careful adherence to health & safety practices and procedures crucial during an emergency.

Response includes:

- Declaring the emergency;
- Following the Community Emergency Plan;
- Conducting evacuations;
- Protecting critical infrastructure and property within VFS boundaries;
- Communicating effectively with responders, media, and the public; and
- Terminating the emergency once all risk has been adequately mitigated.

6.5 Stage 4: Emergency Recovery

Emergencies can cause physical and psychological trauma, infrastructure and property damage, displacement of residents, service disruption, and environmental damage.

Recovery refers to the measures required to restore conditions to an acceptable level following an emergency (refer to section 16). Recovery can be a long-term process involving returning to and rebuilding a changed community.

The effectiveness of existing preventive measures, the Community Emergency Plan, and the emergency response shall be assessed, as well as the financial impact of the event. This shall be followed by a return to the Emergency Prevention and Emergency Preparedness stages to continue the Emergency Management cycle and implement program improvements.

7. Community Emergency Management Program

7.1 Program Composition

The VFS Community Emergency Management Program is comprised of the following documents:

- *Emergency Measures By-law*; and
- *Community Emergency Plan* and associated forms.

7.2 Emergency Measures By-law

The *Emergency Measures By-law*, in accordance with the *NWT Emergency Management Act* and the *NWT Cities, Towns and Villages Act*, defines Council's role in community emergency management:

- Identifies Council as the Local Authority;
- Establishes the Local Emergency Management Organization (LEMO) (refer to section 9); Appoints the Director of Protective Services as the LEMO Coordinator; establishes the Community Emergency Response Committee (CERC);
- Delegates responsibility for development and maintenance of the Community Emergency Plan to the LEMO Coordinator; and,
- Delegates responsibility for emergency response to the LEMO.

7.3 Community Emergency Plan

The Community Emergency Plan:

- Defines VFS's emergency management structure and processes;
- Provides procedures for responding to specific emergencies, evacuating residents, hosting evacuees, and using volunteers.
- Is trained on, tested, and maintained.

Table 1 identifies the associated forms, which are tools for specific response requirements.

Table 1: Community Emergency Plan Forms

Form	Purpose
<i>Form EP-01:</i> <i>State of Local Emergency</i>	Used by Council for emergency declaration, renewal, and termination.

	Community Emergency Plan	2025
--	---------------------------------	------

	Provided by the LEMO Coordinator to the Head of the NWT EMO.
<i>Form EP-02:</i> <i>Partner Agency Agreement</i>	Used to document commitment from external agencies to support VFS in emergency management.
<i>Form EP-03:</i> <i>Emergency Contacts</i>	<p>Contains contact information for parties that may be required during emergency response:</p> <ul style="list-style-type: none"> • VFS Council; • LEMO members; • VFS staff; • Partner Agencies; and • Support Service Providers. <p>This form is for LEMO use only. It is not for public distribution, as it contains confidential contact information.</p>
Purpose	
<i>Form EP-04:</i> <i>Construction Equipment Resource List</i>	Lists equipment available from local construction contractors.
<i>Form EP-05:</i> <i>LEMO Meeting</i>	Used by Scribe to document LEMO Meeting minutes.
<i>Form EP-06:</i> <i>LEMO Position Checklists</i>	Used by LEMO members to track completion of tasks.
<i>Form EP-07:</i> <i>Partner Agency Position Checklists</i>	Used by Partner Agencies to track completion of tasks.
<i>Form EP-08:</i> <i>Volunteer Sign-up</i>	Used to register members of the public as volunteers.
<i>Form EP-09:</i>	List of all volunteers.

	Community Emergency Plan	2025
--	---------------------------------	------

<i>Volunteer Registry</i>	
<i>Form EP-10:</i> <i>Evacuee Sign-up</i>	Used to register evacuees.
<i>Form EP-11:</i> <i>Evacuee Registry</i>	List of all evacuees.
<i>Form EP-12:</i> <i>Evacuation Plan Checklist</i>	Checklist to follow when evacuation of residents is required.
<i>Form EP-13:</i> <i>Evacuation Notifications</i>	Template wording used in evacuation notices, alerts, orders, and all-clears.
<i>Form EP-14:</i> <i>Evacuation Centre Checklist</i>	Checklist to follow when hosting evacuees.
<i>Form EP-15:</i> <i>Emergency Debrief</i>	Used by LEMO Coordinator to document Emergency Debrief Meetings and tabletop exercises.
<ul style="list-style-type: none"> • Form EP-16-1: Response Procedure – All Hazards • Form EP-16-2: Response Procedure – Critical Service Interruption • Form EP-16-3: Response Procedure – Flood • Form EP-16-4: Response Procedure – Structural Fire • Form EP-16-5: Response Procedure – Wildfire 	

8. Hazard Identification Risk Assessment

8.1 Description

As part of the NWT Emergency Management Program, the *NWT Hazard Identification Risk Assessment* (HIRA) determines the potential emergencies of greatest risk to people, property, environment, and economy at both a territorial and a regional level.

Emergencies are assigned a risk score and are ranked by risk level, allowing a focus of resources on the highest risk hazards when developing emergency management strategies.

8.2 Ranking of Emergencies

Extreme	1. Wildfire
High	2. Critical service Interruption 3. Structure fire 4. Loss of apartment complex 5. Flood
Medium	6. Search and Rescue 7. Critical Infrastructure Failure - Water 8. Critical Infrastructure Failure - Power 9. Transportation Incident - Aircraft 10. Community illegal drugs/ addictions 11. Extreme weather events
Low	12. Pandemic/ endemic 13. Active Shooter 14. Land slides 15. Critical Infrastructure Failure (airport runway) 16. Pipeline break

8.3 Emergency Response Procedures

Fort Simpson HIRA score last assessed during Emergency Planning workshop in January 2024.

Emergency response procedures shall be developed for all extreme, high, and medium risk level emergencies, with the following exceptions:

- Emergencies with similar response plans shall be addressed in a single procedure:
 - Severe weather hazards (extreme cold, snowstorm/windstorm);
 - Transportation incidents (road, aircraft); and
 - Critical services interruptions (power fuel, water).

	Community Emergency Plan	2025
--	---------------------------------	------

- A general All Hazards response procedure shall be developed to address emergencies for which no specific response plan exists, which shall include earth movement (erosion), snow load hazard, and all low and negligible risk level emergencies.

Response procedures shall be maintained as part of the annual *Community Emergency Plan* review and approval process (refer to section 9.3).

9. Local Emergency Management Organization (LEMO)

9.1 Membership

The VFS Local Emergency Management Organization (LEMO) is comprised of the following regular members:

- Senior Administrative Officer (SAO).
- Assistant SAO.
- Council Administrator (meeting scheduling and minutes).
- Director of Finance.
- Director of Protective Services.
- Director of Public Works & Services.
- Director of Recreation.

Additional members (i.e., Partner Agencies and VFS staff members) may be added to the LEMO as required during the various phases of emergency management.

- Local Indigenous governments, Fort Simpson Health & Social Services Authority, and any other Partner Agencies deemed necessary shall be invited to participate in LEMO Preparedness Planning meetings.
- During emergency response, those Partner Agencies with response roles shall be invited to participate in LEMO response meetings.

During emergency response, LEMO members may be assigned to specific Incident Command System positions (refer to section 12.3).

9.2 Purpose

oThe LEMO has two main responsibilities:

- *Community Emergency Plan* management; and

	Community Emergency Plan	2025
--	---------------------------------	------

- Emergency response and recovery.

9.3 Responsibility 1: Community Emergency Plan

The first responsibility of the LEMO, led by the LEMO Coordinator, is management of the *Community Emergency Plan*, which involves:

- Developing, implementing, and annually maintaining the *Community Emergency Plan*;
- Holding regular emergency planning LEMO Meetings;
- Monitoring existing or potential risk conditions;
- Identifying and implementing mitigation measures for emergencies identified in the Community Emergency Plan;
- Identifying and entering into agreements with potential Partner Agencies (refer to section 10);
- Conducting tabletop exercises to test and practice using the Community Emergency Plan (refer to section 9.6); and
- Providing public awareness forums and/or materials to residents ahead of high-risk periods.

The Community Emergency Plan shall be reviewed and updated annually:

- Current versions of all reference documents (refer to section 19) shall be reviewed for changes;
- LEMO members shall review the Community Emergency Plan and associated forms and provide update recommendations to the LEMO Coordinator;
- Partner Agencies shall be invited to review and comment on the Community Emergency Plan;
- The LEMO Coordinator shall accept or deny suggested updates and finalize the draft Community Emergency Plan; and
- The LEMO Coordinator shall submit the Community Emergency Plan to Council for approval.

The approved Community Emergency Plan shall be:

- Provided annually to the Head of the NWT EMO (through the REMO);
- Posted to the Village website with all sensitive components removed; and
- Provided to all LEMO members and Partner Agencies.

9.4 Responsibility 2: Emergency Response & Recovery

	Community Emergency Plan	2025
--	---------------------------------	------

The second responsibility of the LEMO, led by the LEMO Coordinator, is emergency response (refer to section 14) and recovery (refer to section 16), which involves:

- Notifying Council, through the LEMO Coordinator, of a potential emergency;
- Upon Council's declaration of a State of Local Emergency (refer to section 13), holding a LEMO Meeting to:
 - Activate the Community Emergency Plan;
 - Assign an Incident Commander;
 - Assign LEMO members to the required Incident Command System positions (refer to section 12.3); and
 - Initiate emergency response;
- Notifying the Head of the NWT EMO of emergency declaration, renewal, and termination Through the Dehcho REMO
- Notifying the public of an emergency and keeping them informed Throughout;
- Adhering to the Community Emergency Plan during emergency response;
- Requesting support from Partner Agencies and Support Service Providers as required;
- Requesting assistance from the REMO as required;
- Logging all actions taken and associated costs;
- Maintaining ongoing communication with Council and the REMO;
- Advising Council to terminate the State of Local Emergency;
- Assessing safety and essential services in the community prior to allowing residents to access affected areas; and
- Initiating the recovery phase.

9.5 LEMO Coordinator

As the leader of the LEMO, the LEMO Coordinator has several specific responsibilities:

- Ensuring the Community Emergency Plan is:
 - Reviewed, updated, and approved by Council annually;
 - Posted to the VFS website (with all sensitive components removed);

	Community Emergency Plan	2025
--	---------------------------------	------

- Provided annually to the Head of the NWT EMO;
- Provided annually to all Partner Agencies; and
- Tested annually Through emergency response exercises (refer to section 9.6);
- Ensuring LEMO members are trained (refer to section 17);
- Scheduling and chairing regular LEMO planning meetings;
- Developing and implementing public awareness and education initiatives such as:
 - Emergency preparedness information:
 - Making a household emergency plan;
 - Planning for animal care;
 - Preparing an emergency kit and a grab-and-go bag;
 - Reviewing the VFS Community Emergency Plan; and
 - Understanding how and where VFS will share emergency information; and
 - Evacuation procedure information.
- Notifying Council of a potential emergency;
- When a State of Local Emergency is declared:
 - Holding a LEMO Meeting to:
 - Activate the Community Emergency Plan;
 - Assign an Incident Commander;
 - Delegate certain LEMO leadership duties to the Incident Commander (e.g., leading the LEMO during response, notifying all agencies involved in the response, communicating with the REMO);
 - Providing notification of emergency declaration, renewal, and termination to:
 - All involved Partner Agencies;
 - The public; and
 - The Head of the NWT EMO, by forwarding a copy of Form EP-01: State of Local Emergency to the Dehcho REMO; and

	<p align="center">Community Emergency Plan</p>	<p align="center">2025</p>
--	---	----------------------------

- Updating Council regularly on emergency response progress and spending.

9.6 Tabletop Exercises

A tabletop exercise is a discussion-based emergency simulation in which LEMO members go through the tasks that they would be responsible for in a real emergency.

The purpose of emergency response exercises is for the LEMO to:

- Practice using the Community Emergency Plan;
- Test the effectiveness of the Community Emergency Plan;
- Identify required improvements to the Community Emergency Plan;
- Improve emergency response; and
- Validate the Community Emergency Plan.

Other benefits include:

- Training staff;
- Testing and validating procedures;
- Clarifying roles and responsibilities;
- Identifying gaps in planning, resources, and training; and
- Improving inter-organizational coordination and communications.

Tabletop exercises shall:

- Be held annually;
- Be coordinated by the LEMO Coordinator;
- Be attended by all available LEMO members;
- Close with a discussion of successes and lessons learned; and
- Be documented on Form *EP-15: Emergency Debrief*.

Partner Agencies may be invited to participate in emergency response exercises

	Community Emergency Plan	2025
--	---------------------------------	------

10. Partner Agencies/ Community Emergency Response Committee

10.1 Description

To ensure the most effective response to emergencies, all available community resources need to be considered as part of emergency management. This includes GNWT departments, Indigenous governments, crown corporations, emergency services, private sector companies, and non-government organizations (e.g., churches, service clubs, volunteer organizations).

A Partner Agency is an external organization with emergency management responsibilities assigned under the *Community Emergency Plan*.

- Partner Agencies may have jurisdiction, facilities, expertise, services, and/or resources required for emergency management.
- Examples of potential partner agencies include government departments, first responders, health & social services authorities, utilities, communications companies, local businesses with relevant expertise and equipment.

Collectively, the various partner agencies are referred to as the Community Emergency Response Committee (CERC).

10.2 Partner Agency Agreements

A *Partner Agency Agreement* is a written agreement between VFS and a Partner Agency.

- While not legally binding, the agreement provides a commitment and assurance of support to VFS for emergency management (i.e., prevention, preparedness, response, and/or recovery).
- Support may include facilities, expertise, services, and/or resources.
- *Partner Agency Agreements* strengthen VFS's emergency management capabilities Through the inclusion of Partner Agencies in various phases of emergency management such as planning and coordination meetings, *Community Emergency Plan* maintenance, emergency response exercises, and emergency response.

The Local Emergency Management Organization (LEMO) shall endeavour to establish written agreements with all Partner Agencies.

- Agreements shall be documented on *Form EP-02: Partner Agency Agreement*.
- Agreements shall indicate the type of support available and the process to activate support.

	Community Emergency Plan	2025
--	---------------------------------	------

10.3 Partner Agencies Without Agreements

While written *Partner Agency Agreements* are preferred, it is recognized that not all Partner Agencies may sign an agreement.

Organizations that provide verbal commitment of support, but do not sign written *Partner Agency Agreements*, shall be considered as Partner Agencies.

10.4 List of Partner Agencies

Contact information, product/service descriptions, and agreement expiry dates for all Partner Agencies shall be listed in *Form EP-03: Emergency Contacts*.

10.5 Requests for Assistance

Participation from, or services of, required Partner Agencies shall be requested by the LEMO as required for emergency management.

Partner Agencies may be temporarily added to the LEMO during emergency response.

11. Support Service Providers

11.1 Description

A Support Service Provider is a local organization that may be required to operate during evacuation to provide goods and services to emergency responders (e.g., food, fuel, and medicine providers).

11.2 List of Support Service Providers

The Local Emergency Management Organization (LEMO) shall proactively identify local service providers that may be required to remain in operation during evacuation.

Contact information and service descriptions for all Support Service Providers shall be listed in *Form EP-03: Emergency Contacts*.

- *Form EP-04: Community Resource List* lists construction equipment available locally.

11.3 Ensuring Level of Service

When an Evacuation Alert or an Evacuation Order have been issued, the LEMO shall:

- Consult the list of Support Service Providers in *Form EP-03: Emergency Contacts*;
- Using *Form EP-12: Evacuation Plan Checklist*, determine which Support Service Providers are required to remain in the community to support emergency responders; and
- Contact the Support Service Providers to arrange for the required level of service.

	Community Emergency Plan	2025
--	---------------------------------	------

12. Incident Command System

12.1 Description

The Incident Command System (ICS) is a standardized and scalable emergency management framework that enables multiple agencies to operate within a common organizational structure.

The Local Emergency Management Organization (LEMO), the NWT EMO, and many other municipal, provincial, territorial, national, and international organizations use ICS for emergency response.

ICS provides:

- Activation of only those positions required to manage a particular emergency;
- Timely assignment of personnel with required training and expertise to critical functions;
- Management structure and language common to all emergency responders;
- A flexible organizational structure capable of responding to all levels of emergencies from simple to complex; and
- A scalable/expandable organizational structure that can grow or shrink quickly in response to changing requirements of an emergency.

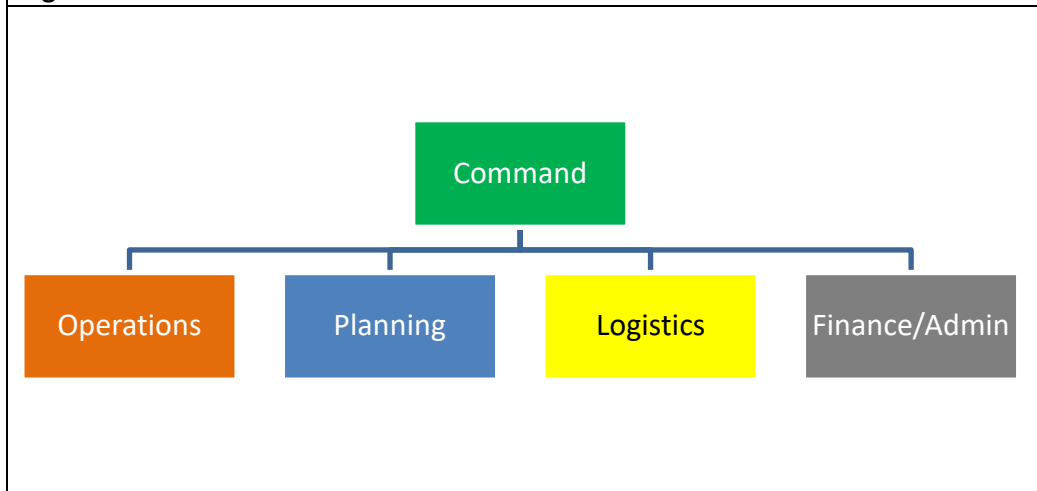

12.2 ICS Structure

During emergency response, the LEMO shall be organized according to the ICS structure.

ICS breaks response into five primary management functions, enabling effective span of control and unity of command (see Figure 1):

- Command (overall responsibility);
- Finance (manages finances);
- Logistics (material support);
- Operations (tactical actions); and
- Planning (action plans).

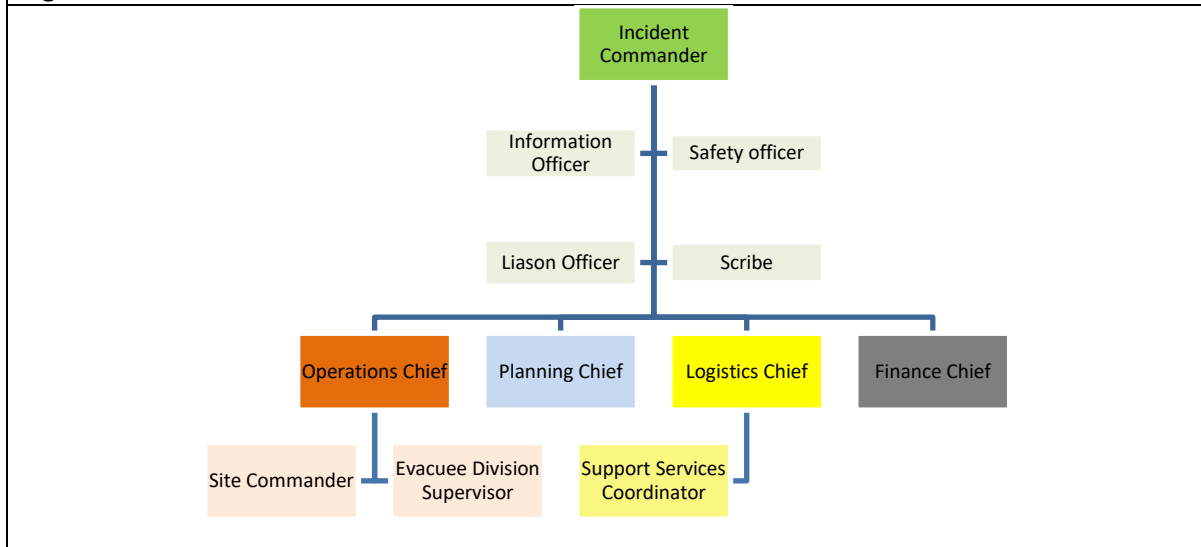

Figure 1: ICS Structure

12.3 ICS Positions

- Those involved in emergency response shall be assigned positions within the ICS structure (see Figure 2).

Figure 2: ICS Positions

Reporting relationships during emergency response may differ from normal operations.

The Incident Commander shall:

- Assign LEMO members to only those positions that are relevant to the particular emergency response;

- Reassign members as required;
- Expand/contract the LEMO as required; and
- Ensure positions are identified on *Form EP-05: LEMO Meeting*.

Partner Agencies may be temporarily included in the LEMO during emergency response.

- Services of required Partner Agencies shall be requested by the LEMO (contact information is found in *Form EP-03: Emergency Contacts*).

Table 3 identifies ICS positions, responsibilities, and the LEMO members that normally fill each position.

Table 3: ICS Positions

Member	Responsibilities
Incident Commander	Lead emergency response, evacuation. Typically filled by Senior Administrative Officer or Director of Protective Services.
Information Officer	Media and public messaging. Typically filled by Assistant Senior Administrative Officer.
Liaison Officer	Coordinate Partner Agencies. Typically filled by Senior Administrative Officer.
Safety Officer	Monitor onsite safety. Typically filled by Public Works employee.
Scribe	Meeting coordination and minutes. Typically filled by Village Office worker.
Planning Chief	Response planning. Typically filled by Incident Commander.
Operations Chief	Carry out plan, tactical action. Typically filled by Director of Protective Services or Deputy Fire Chief.

Site Commander	Manage onsite response. Typically filled by Fire Dept. Senior Ranking Officer.
Evacuee Division Supervisor	Evacuee hosting & transportation coordination. Typically filled by Recreation Coordinator.
Logistics Chief	Supplies and services, information tech, volunteers. Typically filled by Chief Operating Officer.
Support Services Coordinator	Engages Support Service Providers for evacuations. Typically filled by Recreation Programming Coordinator.
Finance Chief	Contracts, payments, tracking, reporting. Typically filled by Finance Director.

13. State of Local Emergency

13.1 Description

A State of Local Emergency is a declaration by the Local Authority that an emergency exists in the community, triggering the activation of the *Community Emergency Plan*.

Only Council (i.e., the Local Authority) is authorized to declare emergencies.

If Council is unable to act, the Mayor may act on Council's behalf.

13.2 Purpose

Declaring a State of Local Emergency provides additional powers to the Local Emergency Management Organization (LEMO) to do everything necessary, for the duration of the order, to respond to an emergency.

Examples include:

- Reallocating resources from regular operations to the emergency response (i.e., workers, equipment, time, funds);
- Evacuating all or part of a community;
- Restricting access to affected areas;

	<p align="center">Community Emergency Plan</p>	<p align="center">2025</p>
--	---	----------------------------

- Acquiring or using land or property, whether private or public;
- Authorizing or requiring qualified individuals to provide services or assistance;
- Removing or demolishing vegetation, structures, equipment, or vehicles; and/or
- Authorizing any person, at any time, to exercise any power listed above.

13.3 Declaration Procedure

Emergencies shall be declared as follows (pursuant to section 28 of the *NWT Cities, Towns and Villages Act*):

- Upon notification that an emergency is anticipated or has occurred, the Senior Administrative Officer (SAO) shall inform Council (e.g., by email or phone).
- Council shall hold an Emergency Council Meeting as soon as reasonably possible. Any Council member may call the meeting. The Councillor who calls the meeting, or the SAO, shall:
 - Notify the Mayor and as many Council members as reasonably possible of the meeting subject and location; and
 - Provide as much public notice of the meeting as reasonably possible.
- At the Emergency Council Meeting:
 - Council members who attend constitute a quorum, regardless of number.
 - If the Mayor or Deputy Mayor are not present, the meeting shall be chaired by another member of Council.
 - Council may only transact business relating to the emergency.
 - If satisfied that an emergency exists or may exist within the community, Council may, by resolution, declare a State of Local Emergency to exist in all or part of the community.
 - Form *EP-01: State of Local Emergency* shall be used to document the declaration.
 - The declaration shall identify the nature of the emergency, the area of the community affected, and the budget approved for the emergency response.
- Declaration of a State of Local Emergency authorizes the activation of the VFS Community Emergency Plan and any powers conferred under the Plan.

13.4 Declaration Renewal & Termination

An emergency expires when terminated by Council, or after seven days – whichever comes first.

	<p align="center">Community Emergency Plan</p>	<p align="center">2025</p>
--	---	----------------------------

Council may renew a declaration of a State of Local Emergency before its expiry, subject to approval by the Minister of MACA.

- Form *EP-01: State of Local Emergency* shall be used to document the renewal, as well as any changes to the area affected and the approved budget.

When the emergency risk has been adequately mitigated, Council shall terminate the declaration of a State of Local Emergency.

- Form *EP-01: State of Local Emergency* shall be used to document the termination.

The Minister of MACA may cancel a declaration of a State of Local Emergency at any time the Minister considers appropriate.

13.5 Notifications

When a State of Local Emergency is declared, renewed, or terminated, the LEMO Coordinator shall ensure the following parties are notified as soon as reasonably possible:

- The Head of the NWT EMO, by forwarding a copy *Form EP-01: State of Local Emergency* to the Dehcho REMO.
- All agencies involved in the response; and
- The public (i.e., the majority of the population of the area affected), using any means of communication necessary. Communication options include:
 - NWT Alert:
 - Operated by the NWT EMO.
 - Part of the national public alerting system “Alert Ready;”
 - Provides critical and potentially life-saving emergency alerts to NWT residents Through cell phones, radio, and television (including information on risk, protective measures, and instruction); and
 - Use shall be requested from the REMO
 - LKFN Radio 90.7 FM
 - VFS Facebook account (www.facebook.com/villageoffortsimpson); and
 - VFS website (www.fortsimpson.com).

14. Emergency Response

14.1 Emergency Operations Centre

The Emergency Operations Centre (EOC) is the physical location from which emergency response is coordinated:

- The primary EOC location is the Village Office.
- The alternate EOC location is the Public Works Shop.
- In the event both EOC locations are compromised by the emergency, a virtual EOC shall be used.

Local Emergency Management Organization (LEMO) Meetings for emergency response shall be held at the EOC.

The EOC shall have suitable space for the LEMO to meet, access to reliable communications (including Internet), and a source of backup power (where possible).

Members of the media and the public are not permitted to access the EOC.

The EOC shall be equipped with hard copies of the following documents:

- Community Emergency Plan and associated forms;
- Emergency Management By-law;
- NWT Cities, Towns & Villages Act;
- NWT Emergency Management Act; and
- NWT Emergency Plan.

The EOC shall be equipped with the following equipment:

- Community maps (including flood risk map, road map, satellite image map);
- Remote communications equipment (including satellite phones, handheld radio equipment);
- Notebooks and pens;
- A laptop computer;
- Guest WIFI with passcode; and
- Keys to the alternate EOC location.

	Community Emergency Plan	2025
--	---------------------------------	------

14.2 LEMO Meetings During Emergency Response

Upon declaration of an emergency by Council, the LEMO Coordinator shall:

- Call and chair a LEMO Meeting;
- Appoint a scribe to take LEMO Meeting minutes using Form *EP-05: LEMO Meeting*;
- Refer to the Community Emergency Plan and identify the response procedure applicable to the emergency (refer to Form EP-16-1 Through Form EP-16-5);
- Identify/assign the Incident Commander:
 - This role shall be assumed by a member of the agency with the predominant role in the response, depending on the emergency;
 - If VFS has the predominant response role, the Incident Commander position may be assumed by the LEMO Coordinator or assigned to another LEMO member who is better suited based on the particular emergency; and
 - Delegate certain LEMO leadership duties to the Incident Commander (e.g., leading the LEMO during response, notifying all agencies involved in the response, communicating with the REMO); and
- Regularly update Council on emergency response progress and spending.

The Incident Commander shall:

- Chair LEMO Meetings (documented on Form *EP-05: LEMO Meeting*);
- Assign LEMO members to ICS positions (refer to section 12.3);
- Ensure applicable Partner Agencies are contacted for assistance;
- Require LEMO members to log all actions taken and associated costs;
- Require all health & safety practices and procedures to be fully followed during emergency response to protect the health & safety of workers and the public;
- Hand out Position Checklists, requiring:
 - LEMO members to complete the duties applicable to their position on Form *EP-06: LEMO Position Checklists*;
 - Partner Agencies to complete the duties applicable to their position on Form *EP-07: Partner Agency Position Checklist*; and
 - Suggested improvements to the forms be submitted to the Scribe;

	<p align="center">Community Emergency Plan</p>	<p align="center">2025</p>
--	---	----------------------------

- Determine LEMO Meeting frequency; and
- Ensure LEMO Meetings include updates from, and action plans for, all positions and Partner Agencies.

14.3 Requesting GNWT Support

When an emergency is too large or complex to handle at the local level, the Incident Commander shall request assistance from the REMO.

The request for assistance from the Dehcho REMO is done first by phone, followed by submission of the Community Government Request for GNWT Emergency Management Assistance by email.

14.4 Volunteers

Volunteers support the LEMO during emergencies in areas such as:

- Evacuee hosting;
- Hazard monitoring (e.g., flood watch);
- Meal preparation;
- Recovery support; and
- Transportation.

The Logistics Chief oversees the management of volunteers. This includes inviting, registering, deploying, and tracking the hours of volunteers, both ahead of and during an emergency.

Volunteers shall be registered, both for coordination purposes and to provide them with protection under the Workers' Compensation Act.

- Volunteers shall be registered using Form *EP-08: Volunteer Sign-up* and shall be tracked on Form *EP-09: Volunteer Registry*.
- Volunteers may be pre-registered, where required, to enable a more efficient emergency response.

14.5 Public & Media Relations

VFS emergencies will cause public concern and garner attention on social and/or mainstream media.

The Information Officer shall address the public and the media regarding emergency response and arrange press conferences and media briefings.

	Community Emergency Plan	2025
--	---------------------------------	------

LEMO members, Partner Agencies, and all others involved in the emergency response shall not make any statements on behalf of VFS on social media, to the public, or to the media. Questions shall instead be referred to the Information Officer.

15. Evacuation

15.1 Evacuation Types

When the Local Emergency Management Organization (LEMO) deems the community, or an area of the community, too hazardous for people to remain, evacuation may be required:

- Partial evacuation (i.e., evacuation within the community from one area to another) shall be managed by the LEMO.
- Full evacuation (i.e., evacuation of the entire community to another community) shall be managed by the REMO.
- Delayed evacuation and sheltering in place may be temporarily advised by the LEMO due to the potential impact of the emergency on road and air travel (e.g., severe weather, wildfire, smoke). Shelters shall be resistant to the impacts of the emergency and may include homes and/or an Evacuation Centre in a safe area with appropriate emergency mitigation measures in place.

15.2 Evacuation Notifications

The LEMO issues up to four levels of evacuation notifications:

- Evacuation Notice
 - Warns of a potential emergency, advises to prepare for evacuation should it be required.
- Evacuation Alert
 - Warns of an emergency presenting increased risk to life and property, advises to be prepared to evacuate on short notice.
 - Advises evacuation of vulnerable residents.
- Evacuation Order
 - Orders immediate evacuation due to an emergency presenting serious risk to life and property.
 - Offers evacuation assistance.
 - Can be issued without declaring a State of Local Emergency.

	<p align="center">Community Emergency Plan</p>	<p align="center">2025</p>
--	---	----------------------------

- Evacuation All-Clear
 - Advises the emergency is under control, the Evacuation Order has been lifted, and it is safe to return.
 - Advises where to go for transportation arrangements.

Evacuation notifications provide:

- A description of the emergency and the affected area (i.e., part or all of the community);

Recommended actions;

- The address for online evacuee registration;
- Instructions for those requiring evacuation assistance; and
- Ways to monitor updates online or by phone.

Evacuation notifications shall be issued:

- By the LEMO, or by MACA if the LEMO is unable;
- With as much advance notice as possible; and
- According to risk level – lower level notifications may be bypassed in situations of higher risk.

Evacuation notification templates are included on Form *EP-13: Evacuation Notifications*.

15.3 Vulnerable Populations

Vulnerable populations are those residents who require special consideration, support, and attention during evacuation:

- Dehcho Health & Social Services facilities patients, clients, and residents:
 - May require special facilities, resources, support, transportation, and placement in similar facilities.
 - Evacuation is governed by the Dehcho Health & Social Services and their facility evacuation plans.
- Vulnerable residents (e.g., elderly, homeless, those with health or mobility issues):
 - May require additional supports during evacuation (e.g., medical attendants, caregivers, family, equipment).

	Community Emergency Plan	2025
--	---------------------------------	------

- Shall be identified ahead of time, where possible, in collaboration with Partner Agencies (e.g., Dehcho Health & Social Services, Indigenous governments).

15.4 Evacuation Priority

Due to the additional time and arrangements required to evacuate, Vulnerable Populations shall be advised to evacuate during the Evacuation Alert phase, where possible.

All remaining residents and visitors shall evacuate during the Evacuation Order phase.

15.5 Evacuation Management

Evacuation of residents shall be conducted as per *Form EP-12: Evacuation Plan Checklist* and shall include:

- Warning residents of pending evacuation;
- Contacting Partner Agencies;
- Identifying and contacting Support Service Providers;
- Identifying staff required to work onsite or remotely to maintain business continuity;
- Evacuating residents;
- Identifying available evacuee hosting; and
- Communicating a call to return.

Evacuation methods are dependent on the emergency and its effect on community inhabitability and accessibility, as well as the availability of Partner Agencies to assist in the evacuation.

15.6 Evacuee Registration

Evacuees shall be:

- Encouraged to register; and
- Provided with the means to register.

Evacuee registration shall be completed:

- Online using the GNWT Evacuee Registration Form (preferred) – a link to the portal shall be provided at www.fortsimpson.com; or
- By completing and submitting *Form EP-10: Evacuee Sign-up*.

Vulnerable residents shall be invited to pre-register.

	<p align="center">Community Emergency Plan</p>	<p align="center">2025</p>
--	---	----------------------------

A list of evacuees shall be compiled and provided to the REMO:

- From the GNWT Evacuee Registration portal; and/or
- On *Form EP-11: Evacuee Registry*.

15.7 Evacuation Centres

Evacuation Centres are typically group lodging facilities (e.g., recreation centres, school gymnasiums) that provide cots, blankets, washroom facilities, showers, and food services.

- VFS shall provide Evacuation Centres for evacuees who are unable to provide for themselves during evacuation, whether local or from another community.
- Evacuees who are able to find their own accommodations shall do so at their own expense.
- The Evacuee Division Supervisor shall manage Evacuation Centres as per *Form EP-14: Evacuation Centre Checklist*.
- Volunteers assisting with evacuee hosting shall be managed as per section 14.4.
- Disrespectful or disruptive behavior at an Evacuation Centre shall not be tolerated and may result in eviction. Evicted evacuees shall be responsible for arranging their own accommodations.

While group lodging and cot sleeping is normally suitable for the majority of evacuees, some individuals may require alternate lodging arrangements due to health requirements.

- Health care providers shall conduct health assessments of evacuees who may require alternate lodging, assessing:
 - Health and medical needs (i.e., health conditions that may require specific accommodations or medical attention);
 - Mobility and accessibility (i.e., whether the Evacuation Centre facilities are suitable given the person's physical condition); and
 - Special considerations (i.e., unique circumstances related to safety, family dynamics, or vulnerabilities that may be incompatible with group lodging).
- Health care providers shall make recommendations for evacuees requiring alternate lodging, either:
 - Temporary accommodations for vulnerable residents or
 - Commercial lodging.

	Community Emergency Plan	2025
--	---------------------------------	------

Evacuation Centres shall:

- Be capable of hosting a large number of people with diverse needs;
- Have cots and blankets available for sleeping;
- Have onsite health personnel to complete health checks and provide basic health services;
- Have procedures and facilities in place to accommodate pets;
- Have adequate washroom and shower facilities;
- Have a food storage and cooking area; and
- Be resistant to impact from the emergency. For example:
 - In a fire emergency, the facility should have a metal roof, have sprinklers available to set up on roof, be located in an area with lower fire risk, have smoke mitigation measures in place such as covering door gaps, turning off air exchange fans, and closing all windows and doors).
 - In a flood emergency, the facility should be located outside of the flood zone.

16. Emergency Recovery

16.1 Description

VFS shall take the required steps to return to full operations and the provision of full municipal services as swiftly as possible, while assisting the community in adjusting to post-emergency realities. This includes:

- Restarting normal operations;
- Returning evacuees;
- Assessing, repairing, and replacing damaged infrastructure and property; and
- Reviewing the effectiveness of the emergency response.

16.2 Community Re-entry

Detailed planning for evacuee re-entry is required prior to issuing the All-Clear notification (refer to section 15.2).

Before allowing re-entry of evacuees, the Local Emergency Management Organization (LEMO) shall ensure the community is in a safe condition. This may require an advance team of workers with

	Community Emergency Plan	2025
--	---------------------------------	------

sufficient skills, time, and resources to ensure essential services are in place and assess the readiness of the community to receive remaining evacuees.

If the degree of damage varies by area, a phased re-entry may be required as areas are declared safe for re-entry.

A reception centre may be required to coordinate the return of certain individuals to their homes (e.g., those without personal transportation).

16.3 Emergency Debrief Meeting

Along with the immediate need to return the community to normalcy, there is a longer-term goal of reducing future vulnerability.

Following termination of an emergency, the LEMO shall hold an Emergency Debrief Meeting to assess the management of the emergency and identify opportunities for improvement:

- Review the effectiveness of the emergency response;
- Review any incidents that occurred during response;
- Review the costs of the response;
- Identify required improvements to the Community Emergency Plan; and
- Identify required preventive measures.

The meeting shall be documented on Form *EP-15: Emergency Debrief*.

- Accountability shall be assigned for all corrective actions (i.e., responsible party and due date).

Partner Agencies may be invited to participate in the Emergency Debrief Meeting.

The LEMO Coordinator shall:

- Chair the Emergency Debrief Meeting;
- Ensure corrective actions are assigned and completed; and
- Present to Council an accounting of the costs of the emergency response.

16.4 Liability and Financial Considerations

Liability

- No action, including for equitable relief, lies for any action or omission done in good faith while carrying out a power or duty under the NWT Emergency Management Act, by:

	Community Emergency Plan	2025
--	---------------------------------	------

- The Minister or a person acting under the Minister’s direction or authorization, including volunteers;
- A person acting under a Local Authority’s direction or authorization, including volunteers; or
- The members of the GNWT Territorial Planning Committee (the body that leads emergency management planning for the GNWT).

Borrowing of Funds

- Subject to the NWT Cities, Towns and Villages Act, within 60 days after the declaration of a State of Local Emergency, the Local Authority, by bylaw, may borrow the necessary sums to pay expenses caused by the emergency and provided at the request of the Local Authority.
- This includes payment for services provided by the GNWT and/or the Government of Canada.

Disaster Assistance

- The GNWT Disaster Assistance Policy is a government-funded program that provides financial support to community governments, small businesses, and individuals in recovering from disasters and restoring damaged property to its pre-disaster condition.
- Application of the policy is determined by the Executive Council of the Northwest Territories following specific disaster events.
- Emergency response and recovery expenses are normally the responsibility of the Local Authority. Should the GNWT Disaster Assistance Policy be applied to an emergency, certain costs may be eligible for reimbursement. Detailed accounting records supporting the expenditures are required to determine eligibility for reimbursement.

Evacuation Cost Recovery

- Detailed records of all evacuation-related expenses and decisions shall be maintained (e.g. timesheets, contracts, proof of payment).
- Expenses related to evacuation and hosting activities are the responsibility of VFS; however:
 - Should the GNWT Disaster Assistance Policy be applied to the emergency, evacuation and hosting expenses are an eligible category as part of a community claim.
 - Where a Local Authority is requested to act as host community by the REMO or TEMO (i.e., to accommodate evacuees from another community), costs associated with hosting are eligible for reimbursement as per the NWT Emergency Plan, regardless of the application of the GNWT Disaster Assistance Policy.

- MACA's Community Government Hosting Evacuees Grant provides financial assistance to eligible community governments that host evacuees outside of a designated Evacuation Centre.

Property Damage

- Any real or personal property acquired, used, damaged, or destroyed by the Local Authority during the emergency response shall be compensated to the owner.

17. Training

17.1 ICS 100 Training (Incident Command System)

Required for all Local Emergency Management Organization (LEMO) members a minimum of once.

17.2 ICS 200 Training (Incident Command System)

Required for all Local Emergency Management Organization (LEMO) members a minimum of once.

17.3 Community Emergency Management Plan Training

Required for all LEMO members a minimum of once every three years.

Community Emergency Plan Declaration of State of Local Emergency

EP-01

Declaration of a State of Local Emergency

Whereas a _____ (describe emergency) _____ (is or was) threatening the _____ (describe specific area, or full community) of Fort Simpson;

Under the authority provided by Section 18(1) of the NWT Emergency Management Act, the Local Authority (i.e., Village Council) hereby:

- ☐ Declares a State of Local Emergency.
- ☐ Renews the State of Local Emergency.
- ☐ Terminates the State of Local Emergency.

Council hereby authorizes a procurement budget of \$_____ for the emergency response.

Local Authority Representative:

Signature:

Date and Time:

Community residents and the Department of Municipal and Community Affairs must be immediately notified once a declaration has been made. This public notice must be given by a means that is commonly acceptable to the community.

Public Announcement of a State of Local Emergency

A _____ (describe emergency) _____ (is or was) threatening the _____ (describe specific area, or full community) of Fort Simpson;
the Local Authority (i.e., Village Council) hereby:

- ☐ Declares a State of Local Emergency.
- ☐ Renews the State of Local Emergency.
- ☐ Terminates the State of Local Emergency.

(For declaration & renewal only): The public is advised that for the duration of the emergency, the Local Authority (i.e., Council) may take any action deemed necessary, as authorized by the NWT Emergency Management Act.

Community Emergency Plan Partner Agency Agreement

EP-02

PURPOSE

Under Section 10(2) of the Emergency Management Act (the Act), the Village of Fort Simpson (VFS) Local Authority is responsible for the development and implementation of the Community Emergency Plan. It is recognized that community emergencies can overwhelm VFS capacities, and that interagency coordination is essential in emergency management for the protection of lives, property, and the environment.

As per Section 11 of the Act, a Local Authority may enter into agreements for the provision of services in the development or implementation of emergency plans or programs. The VFS Local Emergency Management Organization (LEMO) is therefore proactively establishing agreements with Partner Agencies whose resources and support may be required in the emergency management cycle (i.e., prevention, preparedness, response, and/or recovery).

This document formalizes the arrangement between the VFS LEMO and the Partner Agency. It sets out the terms and understanding related to the resources and support that will be provided by the Partner Agency for emergency management, should it be requested by the VFS LEMO. This is not a legally binding agreement.

PARTIES

This Partner Agency Agreement ("Agreement") is made and entered into on this ____ day of _____, 20____ ("Effective Date") by and between:

The Village of Fort Simpson Local Emergency Management Organization ("VFS LEMO")
and
[Name of second party] ("Partner Agency")
[address]

TERM

The term of this Agreement is a fixed term of a duration of three (3) years; commencing at 12:00 noon on the ____ day of _____, 20____ ("Commencement Date") and ending at 12:00 noon on the ____ day of _____, 20____ ("Termination Date").

SERVICES AND SUPPORT

In the event of a request for emergency management support by the VFS LEMO, the Partner Agency shall make available the following facilities, expertise, services, and/or resources, as required:

Community Emergency Plan Partner Agency Agreement

EP-06

3. Information Officer

	Task
	Report to and receive direction from the Incident Commander.
	Ensure critical information is shared with stakeholders in a timely manner, including: <ul style="list-style-type: none">• Residents• Media• Social media
	Arrange press conferences and media briefings as required.
	Ensure all information shared is accurate.
	Receive approval from Incident Commander for public and media releases.

	<p style="text-align: center;">Community Emergency Plan LEMO Position Checklists</p>	<p style="text-align: center;">EP-06</p>
--	--	--

4. Liaison Officer

	Task
	Report to and receive direction from the Incident Commander.
	Establish contact with all Partner Agencies involved in the emergency response.
	If an external agency is the Incident Commander, work from their EOC if required and report back to the LEMO.
	Maintain detailed awareness of the state of the emergency response and planned actions.
	Maintain contact with external agencies and provide updates on the emergency response.
	Represent VFS at external agency briefings/meetings, as required.
	Relay information and requests from external agencies to LEMO.

5. Safety Officer

	Task
	Report to and receive direction from the Incident Commander.
	Acts as subject matter expert for all health & safety issues related to the emergency.
	Determine immediate health & safety requirements.
	Assist responders in hazard assessment and control, incident reporting.

Community Emergency Plan LEMO Position Checklists

EP-06

6. Planning Chief

	Task
	Report to and receive direction from the Incident Commander.
	Organize and facilitate Planning Meetings with the Operations Chief.
	Track resources.
	Determine, in consultation with the Operations Chief: <ul style="list-style-type: none">• Long-term requirements for emergency response (e.g., staffing, weather forecasts, hazards).• Strategies to successfully complete action plans documented in LEMO meetings.
	Ensure position action plans established at LEMO meetings are sufficient.
	Open facilities for reception or evacuation centres.
	Provide staff for the reception or evacuation centres.
	Coordinate food services.

Community Emergency Plan LEMO Position Checklists

EP-06

7. Operations Chief

Task	
Response	
	Report to and receive direction from the Incident Commander.
	Ensure VFS staff and contractors follow all applicable health & safety practices and procedures (no shortcuts).
	Establish and maintain communication with the Site Commander.
	Establish a communication link from the emergency site to the EOC.
	Determine, in consultation with the Planning Chief: <ul style="list-style-type: none">• Long term requirements for emergency response (e.g., staffing, weather forecasts, hazards, etc.).• Strategies to successfully complete action plans documented in LEMO meetings.
	Direct operations and resources to achieve objectives.
	With help from the Logistics Chief, manage procurement of necessary resources and equipment.
	Coordinate operational groups, site activities, and required resources.
	Coordinate monitoring and surveillance of potential or developing hazards.
	Manage fire-fighting operations.
	Conduct or support search and rescue activities (with assistance from volunteers).
	Coordinate evacuations.
	Identify threatened utilities.
	Activate dangerous goods contacts as required
Recovery	
	Coordinate restoration of services and infrastructure.
	Provide/arrange for construction resources and services.

Community Emergency Plan
LEMO Position Checklists

EP-06

	Provide/arrange for transportation resources and services.
	Arrange potable water shuttles.
	Arrange shutdown/restoration of utilities and notify the public.
	Conduct a damage assessment on public property.
	Prioritize the restoration of critical infrastructure.

Community Emergency Plan LEMO Position Checklists

EP-06

8. Site Commander

	Task
	Report to and receive direction from the Operations Chief.
	Establish site control.
	Identify and secure scene perimeter (in consultation with By-Law Officer and/or RCMP where applicable).
	Establish a site command post.
	Assess the overall situation and brief the Operations Chief.
	Manage emergency response activities at the emergency site.
	Ensure onsite health & safety.
	Establish communication links with all response managers on scene.
	Identify overall priorities to all response agencies and assign tasks.
	Coordinate support for the responders.
	Advise the Operations Chief of support required.
	Track personnel entering and leaving the incident site.
	Track resources entering and leaving the incident site.
	Receive updates from all response agencies on activities, damage, casualties, and resource needs.
	Provide situational updates to the Operations Chief.

EP-13

Evacuation Notice

Area: _____

Description: This notice is to advise Fort Simpson residents and visitors of a _____ (*describe potential emergency*) that may affect the _____ (*describe specific area, or full community*) of Fort Simpson. This may present an increased risk to life and property.

Instructions: Fort Simpson residents and visitors are advised:

- Prepare for the emergency and for evacuation, should it be necessary.
- An Evacuation Alert and/or Evacuation Order may be issued at a later time.
- Evacuee pre-registration for vulnerable residents is available at www.portsimpson.com.
- Monitor updates at www.portsimpson.com, www.facebook.com/villageoffortsimpson/, or 1-867-695-2253

Evacuation Alert

Area: _____

Description: A _____ (*describe emergency*) is affecting the _____ (*describe specific area, or full community*) of Fort Simpson. This is expected to present an increased risk to life and property.

Instructions: Fort Simpson residents and visitors are advised:

- Prepare to evacuate on short notice. Vulnerable residents are advised to evacuate.
- An Evacuation Order may be issued at a later time.
- Monitor updates at www.portsimpson.com, www.facebook.com/villageoffortsimpson/, or 1-867-695-2253

Evacuation Order

Area: _____

Description: A _____ (*describe emergency*) is occurring in/near the _____ (*describe specific area, or full community*) of Fort Simpson. There is a serious risk to life and property.

Instructions: Fort Simpson residents and visitors are advised:

- Evacuate immediately to _____ (evacuation destination).
- Those needing transportation assistance should go to _____ (evacuation staging area), or call 1-867-695-2253
- Monitor updates at www.portsimpson.com, www.facebook.com/villageoffortsimpson/, or 1-867-695-2253

Evacuation All-Clear

Area: _____

Description: The _____ (*describe emergency*) emergency affecting the _____ (*describe specific area, or full community*) of Fort Simpson is now under control. The Evacuation Order has been lifted and it is safe to return.

Instructions: Fort Simpson residents are advised:

- If outside of the community, report to _____ (reception centre) for transportation arrangements.
- Monitor updates at www.portsimpson.com, www.facebook.com/villageoffortsimpson/, or 1-867-695-2253
