

Attention Residents: Fire and Road Closure Updates

September 8, 2025

Residents are advised that the fire **FS14** is approximately half a kilometer from highway 1 at this time. Lack of strong winds and a high relative humidity overnight is causing the fire to move slowly through the underbrush.

Vehicle travel is likely to be impacted by smoke. All drivers are advised to watch for personnel on the road, and to put hazards and headlights on when traveling through smoky sections.

Be advised Highway 1 between the ferry and checkpoint may be closed on short notice, and may remain closed for several hours to overnight.

The community and airport of **Fort Simpson** is **still not under direct threat**.

Stay tuned for future updates as the situation unfolds.
