

PUBLIC NOTICE

WATER AND WASTE SERVICES AFTER REENTRY

PIPED AND HAULED WATER

- **No changes** - Water volume, quality and delivery schedule remain at pre-evacuation levels and standards.
- An attempt has been made to have all residential and commercial water tanks filled just prior to reentry.

WASTEWATER PUMP-OUTS

- Wastewater pump-out schedule will resume immediately upon reentry.

GARBAGE

As most are aware, the landfill facility was heavily impacted due to the wildfire. Some changes will be in place until such time as we may resume previous levels of service. To assist in the prompt recovery of this facility, we ask all residents to strictly adhere to the following directions:

- The old landfill is temporarily closed to the public.
- Residential and commercial household waste pickups will remain the same.
- An attempt has been made to have all residential and commercial waste receptacles emptied just prior to reentry.
- Please refrain from putting any non-household waste items in your bags/bins/cans that are routinely picked up by the garbage truck.
- First responders and restoration crews will be working on the site and
NO ONE ELSE WILL BE PERMITTED ENTRY FOR ANY REASON,
until the site is deemed safe and operational.
- Construction waste, mattresses, furniture, white goods, tires, steel, hazardous waste will be collected by the Village staff in an organized fashion once the immediate dangers are addressed. We recommend placing these types of waste at the front of your property for pickup.
- We have constructed a temporary site to store the household waste that we collect, but access is limited to Village staff and our contractors only.

**Thank you for your support and if you have any questions or need clarification
about water or waste, please contact:**
